

ONESEAL HIGH SECURITY CONTAINER SEAL 79-T06 ANTI-SPIN

The flexible design provides a high degree of flexibility to fit on any container, truck or trailer door hasp. The patented anti-spin feature ensures that the pin with its 4 "fins" as part of the locking mechanism prevents friction attacks.

The pin

The pin of the seal has a Ø5 mm soft wire embedded, making it flexible and resistible to any harsh tool.

The pin is coated with plastic and marked with an "H" indicating High Security Seal.

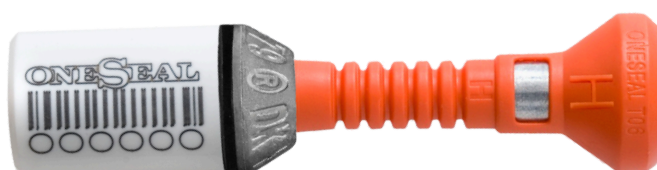

Standard colors are red, white, blue, green, black and yellow.

The soft wire inside the seal pin, prevents tyres from puncturing, if left on the ground after removal.

Certificates

ISO 17712:2013 (H) and C-TPAT compliant.

OneSeal is ISO 9001:2015 compliant.

Marking

Company name or logo can be engraved on the cylinder by use of high technology laser engraving that prevents tampering. All seals are engraved with a consecutive unique numbering. Bar code is standard on all seals.

Packing

The seals are packed in two pieces - cylinders are packed on tape in consecutive order.

Two inner boxes of 100 seals are packed in one outer carton.

Weight and dimensions

	Weight	Length	Width	Height
200 pcs. carton	9.2 kgs	38 cm	11 cm	19 cm
